Catch them Young

The tiny tots from Bloomz International School visited the Institute on 27th August 2019 to experience the art of making a pizza.

The little ones, aged between 3-5, were visibly excited in the new environs to meet Chef Sebastian in his chef cap. They presented him with an apron which had colorful hand print.

They got down to the task of washing their hands to mix the dough, rolling it out and selecting their choice of veggies and it was ready for baking. While they waited for the pizzas to get ready, they sipped on carrot and apple juice. They excitedly ate the pizzas made by them, packed some for home.
