TALK ON SOCIAL MEDIA AND BUILDING APPROPRIATE BOUNDARIES

The Counselling department organized a talk on ‘Social Media and Building Appropriate Boundaries’ on Thursday, 17th November 2022. The guest speaker was Dr. Aldina Braganza - Clinical psychologist and Psychotherapist and has immense experience dealing youth.

She spoke about how the adolescence period is a very critical time in everyone’s life as it unique stage of human development and also an important time for laying the foundations of good mental, physical and emotional health.

She also gave a brief reality check on the lives of influencers and how all they portray online or virtually isn’t always real. Being happy in the virtual world doesn’t not always mean being happy in reality. She also stressed upon the comparison culture on how one often tends to compare themselves with others in the virtual world and are living two lives – virtually and in reality and how it tends to bring in a mental and emotional breakdown at times. Comparison culture tends to make individuals determine their own social and personal worth based on how they measure up against others- which is unhealthy physically, emotionally and mentally. Dr. Aldina touched upon the need for boundaries in the virtual and real life. How ones boundaries in the adolescence phase can turn and shape who or what they become in the future. She used a lot of real life situations/stories and had a practical session on the types of boundaries that could have been set so as to avoid such unpleasant turn of events. Lastly, she concluded by speaking about self- care and its importance in our day to day life.

We took an activity based learning approach, which helped the students have fun along with understanding a few concepts of working in a team. The major ideas we highlighted were: Communication, trust, collaboration/ team work and accountability.

The session started with an icebreaker “find your pair”, where students had to communicate and find their pair e.g. cup saucer, salt pepper etc. Some of the activities that focused on team building were Follow the leader, broken telephone (focusing on communication – nonverbal and verbal); blind snake (trust) and obstacle race (team work/collaboration)

BASIC EMERGENCY

A hands-on training programme focussing on basic emergency aid was organised by the IQAC Cell for the staff and F.Y. students of V. M. Salgaocar Institute of International Hospitality Education on 28th & 29th September 2022 from 9-12:30pm. Mr Jovito Lopes, Secretary of Saint John’s Ambulance Society, Panjim and a versatile motivational speaker was the resource person.

Starting his sessions by listing the various diseases related to lifestyle, Mr. Lopes explained the fundamentals of first aid before elaborating on the treatment procedures to be followed for different types of injuries. While stressing on the Golden Hour Rule for respiratory and cardiac emergencies, he emphasized the fact that it is our sacred duty to do our utmost to save lives. Demonstrating how volunteers should act and respond to a casualty and apply corrective methods, he further explained the right way of administering the AVPU test and CPR (Cardio Pulmonary Resuscitation) to an unconscious person. Valuable information was also provided on the need for a fully-equipped first aid box to be made available in the Institute. The demonstrations were made enjoyable with participant involvement, witty anecdotes and interactive question and answer sessions. World Heart Day was observed on 29th September 2022; Mr. Lopes created awareness on the 2022 theme ‘Use heart for every heart’.
